

PENN-OLIVER AVE S WEB UPDATE—June 23

**Please note that construction schedules and operations are controlled by the contractor and are subject to change based on weather and construction progress.*

Week of June 19

Phase 1 of the Penn-Oliver Concrete Rehabilitation Project began on Monday, June 19, and continued throughout the week. Crews started concrete repairs at Douglas Ave and worked south toward 21st Street W. Residents may have noticed some sidewalk and utility work in this area; however, this work is not related to the Penn-Oliver Concrete Rehabilitation Project.

Week of June 26

Work in the Phase 1 area of the project will finish up early in the week. After completion, the Phase 1 concrete will need a few days to cure.

Phase 2 of the project is planned to start on mid to late week, on the east side of Penn Ave S from 21st St W to W Lake of the Isles Pkwy. The west side of the Penn Ave S will remain open to southbound traffic, and the east side of the road will be closed.

Please refer to the traffic control map below for more details.

Notice

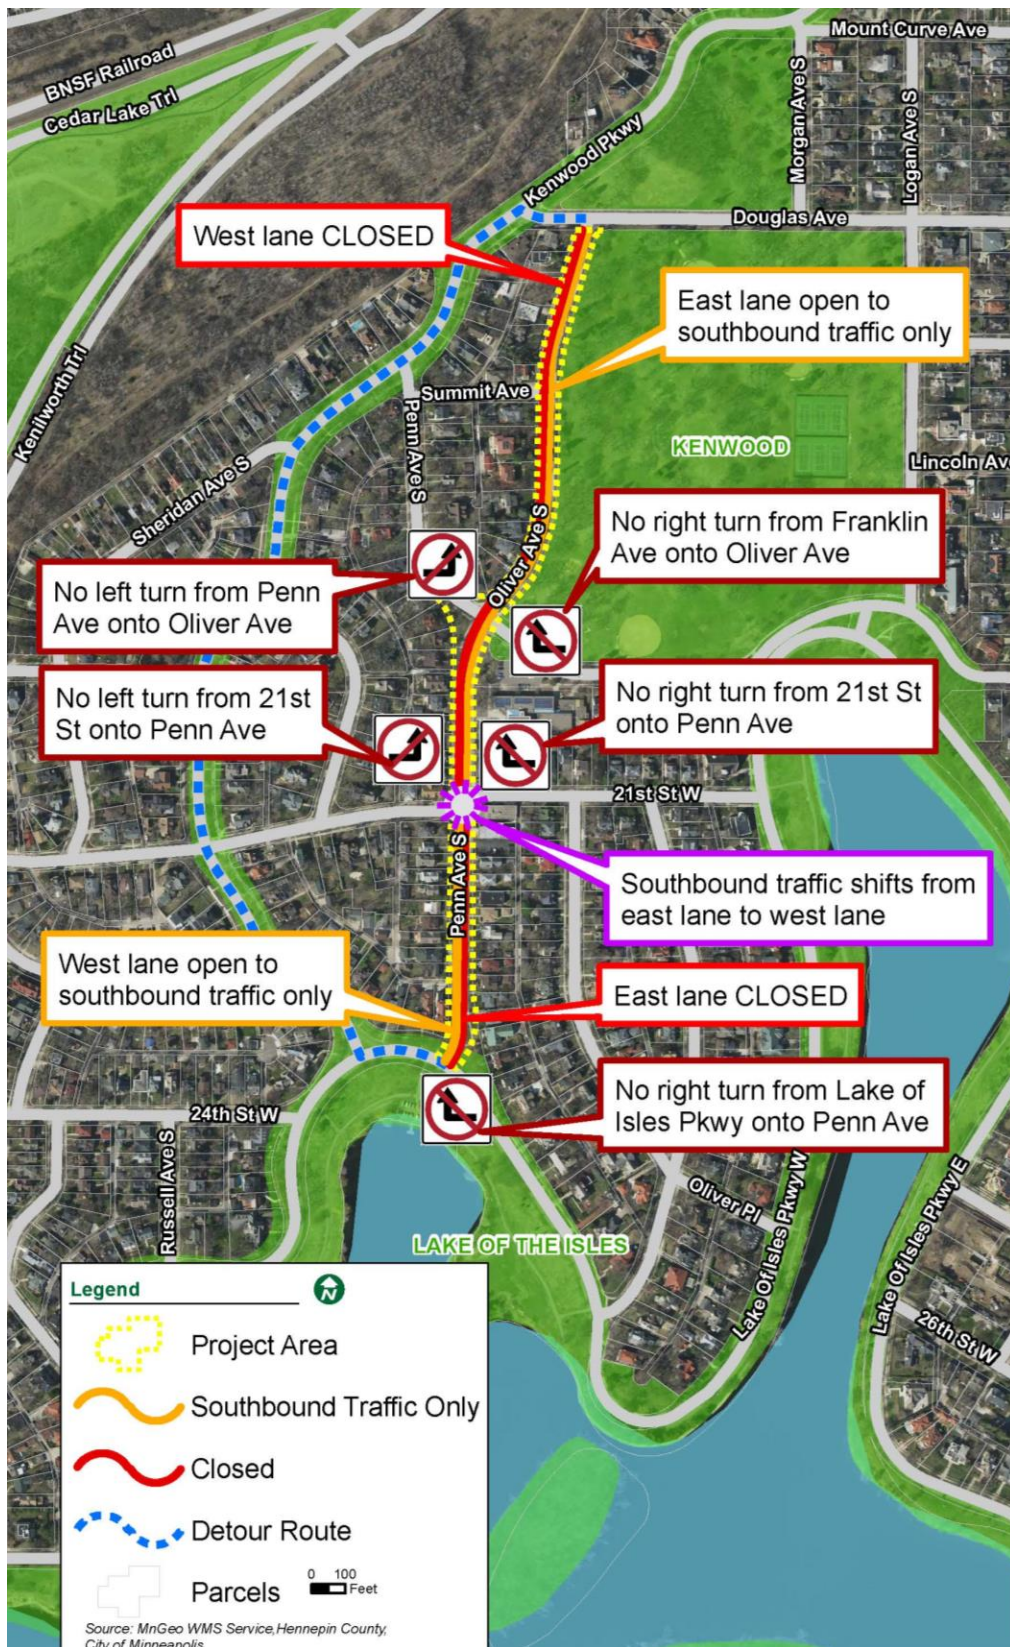

Those looking to access the Kenwood Pet Clinic and FrameStyles are asked to access the parking lot using the alley off of W 21st St across from Kenwood Elementary School.

If you have any concerns, please contact **Nicole Schmidt** at **(612) 430-2805**.

PHASE 2 ACCESS MAP

PHASE 2

Phase 2 will include work along the east side of Penn-Oliver Ave from 21st St W to West Lake of the Isles Pkwy. Southbound traffic only will be allowed along the west side of the Phase 2 street, and NO PARKING signs will be posted between 21st and Lake of the Isles Pkwy. The entire project began on June 19 and is expected to be completed by August 18. Future phases of the work will be detailed in upcoming newsletters.
